

I do not wish to have LPFM take priority over current FM translator service. Giving LPFM priority might put the radio station K-LOVE in jeopardy of broadcasting as it does now. K-LOVE provides clean and uplifting radio programming which benefits any community. The loss of K_LOVE would mean the loss of a commercial-free station which only serves to encourage listeners and brighter their days. The service K-LOVE provides is in the best interest of the public for its high quality of programming that is appropriate (and safe) for listeners of all ages.
